

Ljubljana, March 9, 2020

INFORMATION MEMO

COVID-19 PREVENTIVE MEASURES

The Faculty of Health Sciences adheres to the measures and recommendations issued by the Rector of the University of Ljubljana. Due to new cases of coronavirus infections, we issue updated instructions regarding the implementation of the study process at the Faculty of Health Sciences, University of Ljubljana. Therefore, the cancelation of all pedagogical activities (lectures, seminars, tutorials) is in effect from March 9 to March 15, 2020. Furthermore, contact and office hours are carried out exclusively via email, faculty's library is accessible for reference or borrowing, the quiet study space is, however, closed.

For employees of the Faculty of Health Sciences, UL, the implemented measures still apply (e.g. attendance in the workplace, sick leave, self-isolation). The additional measure is only the cancellation of the direct pedagogical activities, where appropriate personal space cannot be respected.

According to the instructions of the competent ministry, the National Institute of Public Health (NIJZ) and the Ministry of Health all actions taken by an individual institution should be preventive and measures should be modified in due extent according to the changing situation.

The nature of the work of the students of the Faculty of Health Sciences UL requires them to be actively integrated in the clinical settings of healthcare institutions across the country. The latter present additional risk for students and patients and therefore all activities in clinical settings have already been cancelled. In order to prevent and limit the transmission, the cancellation of the direct pedagogical activities is in effect.

The measures and directions will be kept up to date with the development of epidemiologic situation.
